Take Advantage Of Your Innovations

Software Industry Given Generous Incentives Through SR&ED Program

Has your company been Creating, Designing, and Developing products in the Software industry? Many times software companies overlook expenses that are eligible for the SR&ED tax credit program.

Examples of Eligible SR&ED activities: (Software Industry)

- Development of a new operating systems.
- Developing new generic methods of capturing, transmitting, storing, retrieving or manipulating, searching or securing data.
- Development of software to run new types of computer hardware, particularly where there are conflicts between hardware and software.
- Development of new programming languages or software development tools or the development of significant extensions to an existing language.
- Development of new technologies for use in application software.

If you find your company currently takes part in any of these activities, then why wait to take advantage of the SR&ED tax credit program to receive healthy credit for your innovations?

You are only a few steps away from getting what your company truly deserves for creating, innovating, and developing new products or process.

The Scientific Research and Experimental Development Program:

SR&ED incentives take the form of tax credits, and accelerated or additional tax deductions for expenditures made on research and development. Canadian businesses of all sizes, in all sectors are eligible to receive SR&ED tax credits. The incentives range from 20% of the expenditure, to almost 50% in favorable circumstances.

SR&ED expenditures can include **wages, materials, machinery, equipment, overheads**, and SR&ED contracts.

Braithwaite Technology Consultants Inc. can assist you in obtaining tax credits for research and development activities. Whether your work involves basic research, applied research, or experimental development, Braithwaite can take the uncertainty out of the filing process and get you the credit you deserve for your innovation.
